

Emily Reed

Software Engineer

SUMMARY

Curious and adaptable software engineer with a keen understanding of the moldability of code snippets, who enjoys assembling projects from ideas to execution. Looking to bring my tech skills to a team where intrinsically motivated work is encouraged.

WORK EXPERIENCE

Software Engineer at 100Devs Agency - Training Section | Remote

January 2022 - Present

- Built fully accessible and semantically structured web applications with a team of developers
- Employed practices of Object Oriented Programming and Accessibility into web applications
- Applied semantic full-stack web applications

Recent Projects:

In Development: Parrot (FullStack Web App) - Become a more confident speller and speaker with Parrot. This web app will help those with language delays. Improve spelling with the Say It Spell It game or head over to the Word Bank to practice repeating inputted words saved to the bank.

Mimic (Text to Speech Front End App) - A CRUD prototype developed for the playback of words, testing functionality for the user experience. The user is able to play back at multiple speeds. Repeats words at randomized intervals.

Other Projects: Cat Breed Parser, APOD Web App with NASA API integration, Kanye West quote generator, Outlander API

Web Development Consultant, DANSpin Metals | Stow, OH

May 2022 - June 2022

Assessed client's wishes for a website and developed a plan that would best fit the needs of his business. Adapted to client requests and changes in a timely manner.

Wyndham Ridge Apartments | Stow, OH

October 2014 - Present

Working with a team while handling individual projects and ensuring units are turned in a timely manner. Confirm lease agreements and apartments are in compliance with fair housing and tenant laws. Worked with client information, inputting and modifying data.

VOLUNTEERING

NorthEast Ohio Women In Tech | Remote

February 2022 - Present

Organize virtual meet-ups for women in the tech industry. Host speakers for seminars on tech functionality, including Azure.

Akron Women In Tech | Remote

July 2022 - Present

Develop social media presence, promoting and increasing the group's awareness to improve opportunities.
